WHO AM I

Jacob Flint is a tech house producer and DJ based in Joshua Tree, California, delivering bass-heavy, groove-driven tracks built for peak-time energy. Drawing inspiration from artists like Chris Lake, Fisher, and Mall Grab, his sound fuses raw underground grit with big-room-ready momentum.

In early 2025, Jacob played a warehouse rave to 125 people deep in the Mojave Desert—cementing his place as a rising name in California's underground scene. Just months prior, he signed five tracks to three different labels, showcasing his ability to craft infectious, high-impact records that move both DJs and dancefloors.
